RESPONSE AND PRELIMINARY AMENDMENT

The following amendments to the above-identified US patent application are responsive to a final rejection mailed on October 20, 2003. A notice of appeal was filed along with an amendment on February 20, 2004, and the amendment was not entered as raising new matters. This amendment is filed with a request for a one month extension to respond, and a transmittal form for a continuing prosecution application. It is also noted that the notice of appeal was filed with corrected drawings, and the advisory action mailed on April 1, 2004 did not address this status of the revised drawings. Applicant respectfully requests acknowledgment that the corrected drawings are accepted.
